PAPER ROBOTTS 1999.COM

INSTRUCTIONS:

STEP 1: Print. Designed to fit on standard 8.5 x 11 inch paper and to be printed with any printer. A thick matte paper works best for extra sturdiness.

STEP 2: Punch. Using an awl or pen, lay the printed page on a soft surface (such as the carpet) and poke out the marked holes. It is easier to do it now than after the pieces are cut out.

STEP 3: Cut. Using your best pair of scissors and a steady hand, cut out all the limbs and shapes.

STEP 4: Glue. Fold the pieces along the designated fold lines and add a touch of glue to the white tab areas of each piece.

STEP 5: String. Cut some rubber bands (or wire or fishing line) and use them to string together the various limbs. Be sure to tie a knot on each end so it doesn't slip through the holes you punched earlier. A bent staple makes a great sewing needle for threading.

STEP 6: Enjoy! Now take a photo of your paper creation and send it to us at PaperRobots1999.com!

Cut and assemble pieces as shown.

Slide torso into shirt.

Glue head to neck.

String together:

shoulders + shirt + torso + neck;

shoulders + arms;

arms + forearms;

torso + legs;

legs + calves;

calves + feet.
